Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer Space heating energy efficiency class under average climate conditions, medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (IIs) Rated heating output under average climate conditions for low-temperature applications (PIE) Rated heating output under average climate conditions for low-temperature applications (PIE) Rated heating output under average climate conditions for low-temperature applications (PIE) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (R) Seasonal space heating energy efficiency under colder climate conditions for low-temperatur			WPE-I 04 H 230 Premium
Space heating energy efficiency class under average climate conditions, medium-temperature applications A++++ Inversemperature applications At the provided of the provided			202613
medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P sale) Annual energy consumption under average climate conditions for medium-temperature applications (Pis) Annual energy consumption under average climate conditions for well-temperature applications (Pis) Annual energy consumption under average climate conditions for low-temperature applications (Pis) Annual energy consumption under average climate conditions for low-temperature applications (Pis) Annual energy consumption under average climate conditions for low-temperature applications (Pis) Sound power level, indoor Sound power level, indoor Applications (Pis) Special measures Special measures Special measures Special measures For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions assembly, installation or maintenance of the room heater, see the installation instructions (Pis) Ale and the applications (Pis) Seasonal space heating output under conder climate conditions for medium-temperature applications (Pis) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Pis) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Pis) Seasonal space heating energy efficiency under colder climate conditions for low-temperature appli	Manufacturer		STIEBEL ELTRON
Iow-temperature applications Rated heating output under average climate conditions for medium- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Responsible to the conditions for medium-temperature applications (F) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (F) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Rated heating output under average climate conditions for low- temperature applications (OHE) Special measures Special measures For all special measures to be taken during assembly, installation or maintenance of the roor heater, see the installation instructions Rated heating output under colder climate conditions for medium- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P) Seasonal space heating energy effi			A+++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fts) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fts) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fts) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low- temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times Special measures For all special measures to be taken during Special measures For all special measures to be taken during sasembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated h			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ifs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ifs) Annual energy consumption under average climate conditions for low-temperature applications (Ifs) Annual energy consumption under average climate conditions for low-temperature applications (Ifs) Annual energy consumption under average climate conditions for low-temperature applications (Ifs) Sound power level, indoor Special measures For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (If P rated) Rated heating output under colder climate conditions for low-temperature applications (If P rated) Rated heating output under warmer climate conditions for medium-temperature applications (If P rated) Rated heating output under warmer climate conditions for low-temperature applications (If P rated) Rated heating output under colder climate conditions for low-temperature applications (If P rated) Rated heating output under warmer climate conditions for low-temperature applications (If P rated) Rated heating output under warmer climate conditions for low-temperature applications (If P rated) Rated heating output under warmer climate conditions for low-temperature applications (If I rated) Rated heating output under warmer climate conditions for low-temperature applications (If I rated) Rated heating output under warmer climate conditions for low-temperature applications (If I rated) Rated heating output under warmer climate conditions for low-temperature applications (If I rated) Rated heating output under warmer climate conditions for low-temperature applications (If I rated) Rated heating output under warmer climate conditions for low-temperature applications (III) Annual energy consump		kW	4
conditions for medium-temperature applications (R)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Special measures For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions (Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P s) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s) Annual energy consumption under colder climate conditions for medium-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual e		kW	4
conditions for low-temperature applications (f)s Annual energy consumption under average climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (PlE) Rated heating output under warmer climate conditions for low-temperature applications (PlE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate cond		%	153
medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warme		%	195
temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions assembly installation or maintenance of the room heater, see the installation instructions (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer cli		kWh/a	1934
Option for operation only at off-peak times Special measures For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions from temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Annual energy consumption under colder climate conditions for medium-temperature applications (OHE) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)		kWh/a	1723
Special measures For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions. Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	38
Special measures Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Option for operation only at off-peak times		<u>-</u>
temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions
temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	= · ·	kW	4
temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	= · ·	kW	4
temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for kWh/a Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for kWh/a Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	= · ·	kW	4
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a	= · ·	kW	4
conditions for low-temperature applications (ηs)76Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%147Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%187Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a2252Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a2000Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a1300Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a1159		%	157
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		%	201
conditions for low-temperature applications (ηs) % Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) kWh/a Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) kWh/a Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a		%	147
Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 1300		%	187
temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 1300 kWh/a 1159	3, 1	kWh/a	2252
medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 1300	•	kWh/a	2000
