## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer			HPG-I 12 CS Premium
Space heating energy efficiency class under average climate conditions, medium-temperature applications  A+++ Iow-temperature applications  At the provided of			202630
medium-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications (P roted)  Rated heating output under average climate conditions for medium-temperature applications (P roted)  Rated heating output under average climate conditions for low-temperature applications (P roted)  Rated heating output under average climate conditions for low-temperature applications (P roted)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns)  Annual energy consumption under average climate conditions for medium-temperature applications (Ns)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Sound power level, indoor  Special measures  Special measures  Special measures  Special measures  Special measures  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under wareer climate conditions for low-temperature applications (P rated)  Rated heating output under wareer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-tempe	Manufacturer		STIEBEL ELTRON
Instrumentature applications   Rated heating output under average climate conditions for medium- temperature applications (P rated)   Rated heating output under average climate conditions for low- temperature applications (P rated)   Rated heating output under average climate conditions for low- temperature applications (P rated)   Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (F)s   169  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F)s   216  Conditions for low-temperature applications (P)s   Rwh/a   246  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)   Rwh/a   3445  Sound power level, indoor   dB(A)   39  Option for operation only at off-peak times   For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium- temperature applications (P rated)   Rwh/a   12  Exercise the leating output under colder climate conditions for low- temperature applications (P rated)   Rwh/a   12  Rated heating output under colder climate conditions for low- temperature applications (P rated)   Rwh/a   12  Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rwh/a   12  Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rwh/a   12  Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rwh/a   12  Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rwh/a   13  Seasonal space heating energy efficiency under colder climate conditions for low- temperature applications (P rated)   Rwh/a   168  Seasonal space heating energy efficiency under colder climate conditions for low- temperature applications (P rated)   Rwh/a   168  Annual energy			A+++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fts) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fts) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P law conditions			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)H Annual energy consumption under average climate conditions for low-temperature applications (I)H Annual energy consumption under average climate conditions for low-temperature applications (I)H Sound power level, indoor  Sound power level, indoor  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P) and the properature applications (		kW	12
conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s)  Annual energy consumption under colder climate conditions for	- · ·	kW	12
conditions for low-temperature applications (I)s)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P) and possible special possible		%	169
medium-temperature applications (OHE)         KWII/a         3607           Annual energy consumption under average climate conditions for low-temperature applications (OHE)         KWh/a         44445           Sound power level, indoor         dB(A)         39           Option for operation only at off-peak times         -         -           Special measures         For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions         For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions           Rated heating output under colder climate conditions for medium-temperature applications (P rated)         kW         12           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         12           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         12           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         12           Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)         kW         12           Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s         %         224           Seasonal space heating energy efficiency under warmer climate condit		%	216
temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (IS)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (IS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (IS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (IS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (IS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (IS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (IS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (IS)  Seasonal space heating energy efficiency under warmer climate conditions for low-tempe		kWh/a	5607
Option for operation only at off-peak times  Special measures  Ror all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions. Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (R)s  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)		kWh/a	4445
Special measures    For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for medium-temperature applications (P rated)   Rated heating output under warmer climate conditions for medium-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)   Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE)   Annual energy consumption under colder climate conditions for low-temperature applications (QHE)   Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	39
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (¶s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Option for operation only at off-peak times		
Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated)     kW       Rated heating output under warmer climate conditions for medium-temperature applications (P rated)     kW       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW       Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)     %       Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)     %       Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)     %       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %       Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)     %       Annual energy consumption under colder climate conditions for low-temperature applications (QHE)     kWh/a       Annual energy consumption under colder climate conditions for low-temperature applications (QHE)     kWh/a       Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)     kWh/a       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a	- ·	kW	12
temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate warmer climate warmer climate warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	- ·	kW	12
temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	- ·	kW	12
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a	<u> </u>	kW	12
conditions for low-temperature applications (ηs)76224Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%168Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%214Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a6485Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a5108Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3650Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2896		%	174
conditions for medium-temperature applications (ηs)%108Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%214Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a6485Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a5108Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3650Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2896		%	224
conditions for low-temperature applications (ηs)%214Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a6485Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a5108Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3650Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2896		%	168
Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  2896	, , ,	%	214
