## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer			WPL 18 E
Space heating energy efficiency class under average climate conditions, medium-temperature applications   A++			227757
medium-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications (P roted)  Rated heating output under average climate conditions for medium-temperature applications (P roted)  Rated heating output under average climate conditions for low-temperature applications (P roted)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (II)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (III)  Annual energy consumption under average climate conditions for medium-temperature applications (III)  Annual energy consumption under average climate conditions for low-temperature applications (III)  Annual energy consumption under average climate conditions for low-temperature applications (III)  Annual energy consumption under average climate conditions for low-temperature applications (III)  Sound power level, indoor  Sound power level, indoor  Sound power level, indoor  Annual energy consumption under average climate conditions for low-temperature applications (III)  Special measures  Special measures  Special measures  Annual energy consumption under average climate conditions for low-temperature applications (III)  Annual energy consumption under everage climate conditions for low-temperature applications (III)  Annual energy consumption under conder climate conditions for low-temperature applications (III)  Annual energy consumption under verage climate conditions for low-temperature applications (III)  Annual energy consumption under verage climate conditions for low-temperature applications (III)  Annual energy efficiency under colder climate conditions for low-temperature applications (III)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (III)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (IIII)  Seasonal space heat	Manufacturer		STIEBEL ELTRON
Instrumenture applications   Rated heating output under average climate conditions for medium- temperature applications (P rated)   Rated heating output under average climate conditions for low- temperature applications (P rated)   Rated heating output under average climate conditions for low- temperature applications (P rated)   Rated heating output under average climate conditions for low- temperature applications (S)   Rated heating energy efficiency under average climate conditions for low- temperature applications (S)   Rated heating energy efficiency under average climate conditions for low- temperature applications (OHE)   Rated heating output under average climate conditions for low- temperature applications (OHE)   Rated heating output under average climate conditions for low- temperature applications (OHE)   Rated heating output under colder climate conditions for low- temperature applications (OHE)   Rated heating output under colder climate conditions for medium- temperature applications (OHE)   Rated heating output under colder climate conditions for medium- temperature applications (P rated)   Rated heating output under colder climate conditions for low- temperature applications (P rated)   Rated heating output under colder climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under w			A+
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fls) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fls) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fls) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low- temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times  For all special measures to be taken during Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium- temperature applications (P rated)  Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Seasonal space heatin			A++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ss) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under varmer climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Reasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Ann		kW	13
conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during seembly, installation or maintenance of the room leaster, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s)  Annual energy consumption under colder climate conditions for low-temperat		kW	12
conditions for low-temperature applications (P)s  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (PIs)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual ener		%	121
medium-temperature applications (QHE)         kWh/a         6848           Annual energy consumption under average climate conditions for low-temperature applications (QHE)         kWh/a         6404           Sound power level, indoor         dB(A)         57           Option for operation only at off-peak times         -         -           Special measures         For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions           Rated heating output under colder climate conditions for medium-temperature applications (P rated)         kW         13           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         12           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         11           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         11           Reasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)         kW         11           Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s         %         113           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P)s         %         133           Seasonal space heating energy effici		%	157
temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Special measures  Special measures  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ifs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ifs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs)  Rated heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs)  Rated heating output under colder climate conditions for low-temperature applications (Ifs)  Rated heating output under colder climate conditions for low-temperature applications (Ifs)  Rated heating output under colder climate conditions for low-temperature applications (Ifs)  Rated heating output under colder climate conditions for low-temperature applications (Ifs)  Rated heating output under colder climate con		kWh/a	8684
Option for operation only at off-peak times     For all special measures to be taken during assembly, installation or maintenance of the room assembly, installation or maintenance of the room heater, see the installation instructions.       Rated heating output under colder climate conditions for low-temperature applications (P rated)     kW     14       Rated heating output under colder climate conditions for low-temperature applications (P rated)     kW     12       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW     12       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW     11       Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)     %     111       Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)     %     143       Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)     %     137       Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)     %     180       Annual energy consumption under colder climate conditions for low-temperature applications (NHE)     kWh/a     11972       Annual energy consumption under colder climate conditions for low-temperature applications (OHE)     kWh/a     4592       Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)     kWh/a<		kWh/a	6404
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (¶s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	57
Special measures         assembly, installation or maintenance of the room heater, see the installation instructions with temperature applications (P rated)         kW         14           Rated heating output under colder climate conditions for low-temperature applications (P rated)         kW         13           Rated heating output under warmer climate conditions for medium-temperature applications (P rated)         kW         12           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         11           Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)         %         111           Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)         %         143           Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)         %         137           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)         %         137           Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (OHE)         kWh/a         11972           Annual energy consumption under colder climate conditions for low-temperature applications (QHE)         kWh/a         4592           Annual	Option for operation only at off-peak times		
Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (\(\Omega)\)s  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (\(\Omega)\)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (\(\Omega)\)s  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (\(\Omega)\)s  Annual energy consumption under colder climate conditions for medium-temperature applications (\(\Omega)\)HE  Annual energy consumption under colder climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated)     kW     13       Rated heating output under warmer climate conditions for medium-temperature applications (P rated)     kW     12       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW     11       Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)     %     111       Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)     %     143       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %     137       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %     180       Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)     %     180       Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)     kWh/a     11972       Annual energy consumption under colder climate conditions for low-temperature applications (QHE)     kWh/a     4592       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a     3294		kW	14
temperature applications (P rated)     kW     12       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW     11       Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)     %     111       Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)     %     143       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %     137       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %     180       Annual energy consumption under colder climate conditions for low-temperature applications (ηs)     kWh/a     11972       Annual energy consumption under colder climate conditions for low-temperature applications (QHE)     kWh/a     8929       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a     4592       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a     3294	<b>9</b> ,	kW	13
temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for kWh/a  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for kWh/a  Emperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kW	12
