## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer  Space heating energy efficiency class under average climate conditions, medium-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications (P rated)  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (P rated)  Special measures  For all special measures to be taken duri assembly, installation or maintenance of the roc heater, see the installation instruction assembly, installation or maintenance of the roc heater, see the installation instruction assembly, installation or maintenance of the roc heater, see the installation instruction assembly, installation or maintenance of the roc heater, see the installation instruction assembly, installation or maintenance of the roc heater, see the installation instruction assembly, installation or maintenance of the roc heater, see the installation instruction assembly, installation or maintenance of the roc heater, see the ins			WPL 18 I cool Set
Space heating energy efficiency class under average climate conditions, medium-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Reseasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (N)s  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for kWh/a  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the roch heater, see the installation instruction with temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (N)s  Seasonal space heating energy efficiency under colder climate			230037
medium-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns)  Annual energy consumption under average climate conditions for low-temperature applications (Ng)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken duri assembly, installation or maintenance of the roc heater, see the installation instruction for the roc heater, see the installation instruction for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate  Seasonal space heat	Manufacturer	•	STIEBEL ELTRON
Investemperature applications   Rated heating output under average climate conditions for medium-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (P rated)   Rated heating output under average climate conditions for medium-temperature applications (Ns)   Rated heating energy efficiency under average climate conditions for low-temperature applications (Ns)   Rated heating output under average climate conditions for low-temperature applications (OHE)   Rated heating output under average climate conditions for low-temperature applications (OHE)   Rated heating output under colder climate conditions for medium-temperature applications (OHE)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for medium-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate co	, , ,		A+
temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (\$\Pi\$s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (\$\Pi\$s)  Annual energy consumption under average climate conditions for medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche heater, see the installation instruction assembly, installation or maintenance of the roche he		,	A++
Emperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs)  Annual energy consumption under average climate conditions for medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the rocheater, see the installation instruction with temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temp		kW	13
conditions for medium-temperature applications (Ŋs)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ŋs)  Annual energy consumption under average climate conditions for medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken duri assembly, installation or maintenance of the roc heater, see the installation instruction assembly, installation or maintenance of the roc heater, see the installation instruction with temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ŋs)  Seasonal space heating energy efficiency under colder climate	5 .	kW	12
conditions for low-temperature applications (ηs)  Annual energy consumption under average climate conditions for medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken duri assembly, installation or maintenance of the room heater, see the installation instruction with temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ωs)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ωs)		%	122
medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the row-heater, see the installation instruction instruction instruction in the period of the row-heater, see the installation instruction in the period of the row-heater applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P)  Seasonal space heating energy efficiency under colder climate  conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate		%	160
temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction heater, see the installation instruction heater, see the installation instruction for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate		kWh/a	8583
Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the rock heater, see the installation instruction heater seems heater productions (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applic		kWh/a	6201
For all special measures be taken during assembly, installation or maintenance of the roch heater, see the installation instruction with temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate	Sound power level, indoor	dB(A)	57
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate	Option for operation only at off-peak times		<u>-</u>
temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate	Special measures		For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions
Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate  Seasonal space heating energy efficiency under colder climate		kW	14
temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate	<u> </u>	kW	13
temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate  Seasonal space heating energy efficiency under colder climate		kW	12
conditions for medium-temperature applications ( $\eta$ s)  Seasonal space heating energy efficiency under colder climate		kW	11
		%	112
conditions for low-temperature applications ( $\eta$ s)	Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications ( $\eta$ s)	%	143
Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)		%	136
Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications ( $\eta$ s)		%	187
Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) kWh/a	•	kWh/a	11846
Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a	3, 1	kWh/a	8758
Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) kWh/a 46-	3, 1	kWh/a	4640
Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 31		kWh/a	3170
Sound power level, outdoor dB(A)	Sound power level, outdoor	dB(A)	62
