| Seasonal room heating efficiency in moderate climates for average temperature applications ( $\eta_s$ )                                   | % | 142            |
| Temperature controller class  |   | VII            |
| Contribution of temperature controller to room heating energy efficiency  | % | 3.50           |
| Room heating energy efficiency of composite system under moderate climatic conditions   | % | 146            |
| Room heating energy efficiency of composite system under colder climatic conditions   | % | 151            |
| Room heating energy efficiency of composite system under warmer climatic conditions   | % | 145            |
| Value of differential between room heating energy efficiency under moderate climatic conditions and that under colder climatic conditions | % | 5              |
| Value of differential between room heating energy efficiency under warmer climatic conditions and that under moderate climatic conditions | % | 1              |
| Energy efficiency class for central heating in moderate climates for medium temperature applications                                      |   | A++            |
| Room heating energy efficiency class of composite system under moderate climatic conditions   |   | A++            |
| Energy efficiency category for DHW heating under moderate climatic conditions   |   | A              |
| Load profile  |   | XL             |
