## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer Space heating energy efficiency class under average climate conditions, medium-temperature applications Commedium-temperature applications (Prated) Commedium-temperature applicat			WPL 25 AC
Space heating energy efficiency class under average climate conditions, medium-temperature applications   A+++			236645
medium-temperature applications  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P rated)  Annual energy consumption under average climate conditions for medium-temperature applications (P rated)  Annual energy consumption under average climate conditions for low-temperature applications (P rated)  Annual energy consumption under average climate conditions for low-temperature applications (P rated)  Annual energy consumption under average climate conditions for low-temperature applications (P rated)  Sound power level, indoor  Sound power level, indoor  Sound power level, indoor  Annual energy consumption under average climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under ware climate conditions for low-temperature applications (P rated)  Rated heating output under ware climate conditions for medium-temperature applications (P rated)  Rated heating output under ware climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under warmer climate conditions for	Manufacturer		STIEBEL ELTRON
Instrumenture applications   Rated heating output under average climate conditions for medium- temperature applications (P rated)   Seasonal space heating output under average climate conditions for low- temperature applications (P rated)   Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)   Seasonal space heating energy efficiency under conditions for low- temperature applications (OHE)   Seasonal space heating energy efficiency under conditions for low- temperature applications (OHE)   Seasonal space heating energy efficiency under conditions for low- temperature applications (P rated)   Seasonal space heating energy efficiency under conditions for low- temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (F)   Seasonal space heating energy effic			A++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fls) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fls) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fls) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low- temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ss) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under volder climate conditions for low-temperature applications (P rated) Rated heating output under varmer climate conditions for low-temperature applications (P rated)  Rated heating output under varmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (I)s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (I)s)  Annual energy consumption und		kW	15
conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures be taken during seembly, installation or maintenance of the room leaster, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy eff		kW	15
conditions for low-temperature applications (P)s  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Pis)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual ener		%	144
medium-temperature applications (QHE)         kWh/a         6444           Annual energy consumption under average climate conditions for low-temperature applications (QHE)         kWh/a         6513           Sound power level, indoor         dB(A)         0           Option for operation only at off-peak times         -         -           Special measures         For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions         -           Rated heating output under colder climate conditions for medium-temperature applications (P rated)         kW         21           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         8           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         8           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         8           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         8           Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)         kW         2           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Pis)         %         177           Seasonal space heating energy efficie		%	187
temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications ((Is))  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications ((Is))  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications ((Is))  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications ((Is))  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications ((Is))  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications ((Is))  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer clima		kWh/a	8444
Option for operation only at off-peak times       For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions         Rated heating output under colder climate conditions for medium-temperature applications (P rated)       kW       22         Rated heating output under colder climate conditions for low-temperature applications (P rated)       kW       8         Rated heating output under warmer climate conditions for low-temperature applications (P rated)       kW       8         Rated heating output under warmer climate conditions for low-temperature applications (P rated)       kW       8         Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)       %       125         Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)       %       160         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)       %       177         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)       %       160         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)       %       167         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (OHE)       kWh/a       16179         Annual energy consumptio		kWh/a	6513
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (∏s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (∏s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (∏s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (∏s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (∏s)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	0
Special measures         assembly, installation or maintenance of the room heater, see the installation instructions heater, see the installation instructions heater, see the installation instructions for temperature applications (P rated)         kW         22           Rated heating output under colder climate conditions for low-temperature applications (P rated)         kW         21           Rated heating output under warmer climate conditions for medium-temperature applications (P rated)         kW         8           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         8           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         8           Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)         %         125           Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)         %         160           Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps)         %         177           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (OHE)         kWh/a         16179           Annual energy consumption under colder climate conditions for low-temperature applications (QHE)         kWh/a         12690           Annual energy consumption under warmer climate conditions for low-temp	Option for operation only at off-peak times		
Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (\(\Omega)\)s  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (\(\Omega)\)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (\(\Omega)\)s  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (\(\Omega)\)s  Annual energy consumption under colder climate conditions for medium-temperature applications (\(\Omega)\)HE  Annual energy consumption under colder climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE  Annual energy consumption under warmer climate conditions for low- temperature applications (\(\Omega)\)HE	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kW	22
temperature applications (P rated)     kW     8       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW     8       Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)     %     125       Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)     %     160       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %     177       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %     246       Annual energy consumption under colder climate conditions for low-temperature applications (ηs)     kWh/a     16179       Annual energy consumption under colder climate conditions for low-temperature applications (QHE)     kWh/a     12690       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a     2369       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a     1718	<b>5</b> .	kW	21
