## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Space heating energy efficiency class under average climate conditions, medium-temperature applications  A+++ Invertemperature applications  At the provided of the provided o			WPE-I 15 H 230 Premium
Space heating energy efficiency class under average climate conditions, medium-temperature applications  A+++ Invertemperature applications  At the provided of the provided o			238613
medium-temperature applications  Energy efficiency class, space heating under average climate conditions, low-temperature applications  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R) and average climate conditions for low-temperature applications (R) and average climate conditions for low-temperature applications (R) and average climate conditions for low-temperature applications (ME)  Annual energy consumption under average climate conditions for low-temperature applications (ME)  Annual energy consumption under average climate conditions for low-temperature applications (ME)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Special measures  Special measures  Special measures  Assembly, installation or maintenance of the room heater, see the installation instructions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warer climate conditions for medium-temperature applications (P rated)  Rated heating output under warer climate conditions for medium-temperature applications (P rated)  Sassonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)  Sassonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Sassonal space heating energy efficiency under col	Manufacturer		STIEBEL ELTRON
Iow-temperature applications Rated heating output under average climate conditions for medium- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Resplications (P rated) Respective majority under conditions for low- temperature applications (P rated) Resplications (P rated) Respective majority under conditions for low- temperature applications (P rated) Resplications (P rated) Resplications (P rated) Resplications (P rated) Respective majority under conditions for low- temperature applications (P rated) Resplications (P rated) Resplications (P rated) Resplications (P rated) Resplications			A+++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fts) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fts) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fts) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low- temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature ap			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Sound power level, indoor  Special measures  For all special measures ob taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under marmer climate conditions for low-temperature applications (P rated) Readed heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P) and provide warmer climate conditions for medium-temperature applications (P) and provide warmer climate conditions for low-temperature applications (P) and provide warmer climate conditions for low-temperature applications (P) and provide warmer climate conditions for low-temperature applications (PHE)  Annual energy consumption under colder climate conditions for		kW	14
conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under gentle developed climate conditions for medium-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under		kW	15
conditions for low-temperature applications (f)s)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P lis)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P lis)  Annual energy consumption under colder climate conditions for low-temperature applications (P lis)  Annual e		%	168
medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Becalal measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applicatio		%	210
temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating o		kWh/a	6476
Option for operation only at off-peak times  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions. Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kWh/a	5489
Special measures    For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for medium-temperature applications (P rated)   Rated heating output under warmer climate conditions for medium-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)   Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)   Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)   Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)   Annual energy consumption under colder climate conditions for low-temperature applications (QHE)   Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	39
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (¶s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Option for operation only at off-peak times		<u>-</u>
temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	<del>-</del> ,	kW	14
temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	<del>-</del> ,	kW	14
temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for kWh/a  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for kWh/a  Equation (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	<del>-</del> ,	kW	14
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a	9 ,	kW	14
conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		%	174
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%208Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a7451Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a6298Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a4211Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a3573		%	218
conditions for low-temperature applications (ηs)%208Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a7451Annual energy consumption under colder climate conditions for low-temperature applications (QHE)kWh/a6298Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a4211Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)kWh/a3573		%	167
medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  3573	, , ,	%	208
temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  kWh/a  3573		kWh/a	7451
medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  3573		kWh/a	6298
temperature applications (QHE)		kWh/a	4211
