Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer STIEBEL ELTRC Space heating energy efficiency class under average climate conditions, medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (NHE) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the roow heater, see the installation instruction heater applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temper			HPA-O 07.1 CS Premium
Space heating energy efficiency class under average climate conditions, medium-temperature applications A++ Energy efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (f)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (P)s Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the roon heater, see the installation instruction assembly, installation or maintenance of the roon heater, see the installation instruction with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (202668
Energy efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the roomal heater, see the installation instruction with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-tempe	Manufacturer		STIEBEL ELTRON
Rated heating output under average climate conditions for medium- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Reseasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I _S) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I _S) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I _S) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low- temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures For all special measures to be taken during assembly, installation or maintenance of the rook heater, see the installation instruction Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature appl			A+++
Rated heating output under average climate conditions for low-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction heater, see the installation instruction with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s			A+++
Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction heater, see the installation instruction with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis)		kW	8
conditions for medium-temperature applications (∏s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (∏s) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P)s		kW	8
Conditions for low-temperature applications (Ŋs) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction assembly, installation or maintenance of the room heater, see the installation instruction for temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under warmer climate		%	153
medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction heater, see the installation instruction with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P)s Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)		%	192
temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction heater, see the installation instruction with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under colder climate warmer climate Seasonal space heating energy efficiency under colder climate warmer climate Seasonal space heating energy efficiency under colder climate warmer climate Seasonal space heating energy efficiency under colder climate warmer climate Seasonal space heating energy efficiency under colder climate warmer climate Seasonal space heating energy efficiency under colder climate warmer climate		kWh/a	4219
Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instruction. Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW 1 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 1 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 1 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 1 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) % 12 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) % 15 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) % 15 Seasonal space heating energy efficiency under warmer climate % 15 Seasonal space heating energy efficiency under warmer climate % 15 Seasonal space heating energy efficiency under warmer climate % 16		kWh/a	3413
