Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Space heating energy efficiency class under average climate conditions, medium-temperature applications Face present of the properature applications A++ Energy efficiency class, space heating under average climate conditions, low-temperature applications A++ Rated heating output under average climate conditions for medium-temperature applications (Prated) Rated heating output under average climate conditions for low-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Sps) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Sps) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Applications (Prated) Special measures Special measures Special measures Special measures Applications (Prated) Rated heating output under colder climate conditions for medium-temperature applications (Prated) Rated heating output under colder climate conditions for medium-temperature applications (Prated) Rated heating output under warmer climate conditions for low-temperature applications (Prated) Rated heating output under warmer climate conditions for low-temperature applications (Prated) Rated heating output under warmer climate conditions for low-temperature applications (Prated) Rated heating output under warmer climate conditions for low-temperature applications (Prated) Rated heating output under warmer climate conditions for low-temperature applications (Prated) Rated heating output under warmer climate conditions for low-temperature applications (Prated) Rated heating output under warmer climate conditions for low-temperature applications (Prated) Seasonal			WPL-A 13 HK 400 Premium
Space heating energy efficiency class under average climate conditions, medium-temperature applications A++ Iow-temperature applications A++ Iow-temperature applications A++ Iow-temperature applications P rated) Sample S			
medium-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (P rated) Reasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Ranual energy consumption under average climate conditions for medium-temperature applications (Ps) Ranual energy consumption under average climate conditions for low-temperature applications (Pith) Ranual energy consumption under average climate conditions for low-temperature applications (Pith) Ranual energy consumption under average climate conditions for low-temperature applications (Pith) Ranual energy consumption under average climate conditions for low-temperature applications (Pith) Rated heating output under colder climate conditions for low-temperature applications (Pith) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate condit	Manufacturer		STIEBEL ELTRON
Iow-temperature applications Rated heating output under average climate conditions for medium- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Reseasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under conditions for low- temperature applications (OHE) Seasonal space heating output under average climate conditions for low- temperature applications (OHE) Seasonal space heating output under colder climate conditions for medium- temperature applications (P rated) Special measures Seasonal space heating output under colder climate conditions for low- temperature applications (P rated) Seasonal space heating output under warmer climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (F) Seasonal space heating energy efficiency under varmer climate conditions for low-temperature applications (fs) Seasonal space heating energy efficiency under varmer climate conditions for low-temperature applications (fs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (fs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (fs) Seasonal space heating energy efficiency under warmer clim			A++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (fls) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Shs) Ranual energy consumption under average climate conditions for low-temperature applications (OHE) Ranual energy consumption under average climate conditions for low- temperature applications (OHE) Rated heating output under average climate conditions for low- temperature applications (OHE) Rated heating output under colder climate conditions for medium- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for medium- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer applications (A++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ss) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under varmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P lis) Rated heating output under war		kW	15
conditions for medium-temperature applications (Ns) 139 Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns) 8643 Annual energy consumption under average climate conditions for medium-temperature applications (QHE) kWh/a 8643 Annual energy consumption under average climate conditions for low-temperature applications (QHE) kWh/a 6657 Sound power level, indoor dB(A) 0 Option for operation only at off-peak times For all special measures to be taken during seambly, installation or maintenance of the room assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW 19 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)		kW	14
conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times Special measures Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (Pis) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Pis) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P lis) Annual energy co		%	139
Annual energy consumption under verage climate conditions for low-temperature applications (QHE) Annual energy consumption under verage climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Becal leading output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s Sea		%	171
temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Por all special measures or assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Is) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Is) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is) Annual energy consumption under colder climate conditions for low-temperature applications (Is) Annual energy consumption under warmer climate conditions for low-temperature applications (Is) Annual energy consumption under warmer climate conditions fo		kWh/a	8643
Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 19 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s) % 115 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s % 132 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s % 159 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s % 200 Annual energy consumption under colder climate conditions for low-temperature applications (OHE) kWh/a 14178 Annual energy c		kWh/a	6657
Special measures Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (¶s) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (¶s) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (¶s) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (¶s) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	0
Special measures assembly, installation or maintenance of the room heater, see the installation instructions for medium-temperature applications (P rated) kW 19 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 19 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) % 115 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s % 132 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s % 200 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s kWh/a 16029 Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a 3330 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 3330	Option for operation only at off-peak times		
temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Annual energy consumption under colder climate conditions for kWh/a Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated) kW 19 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ŋs) % 115 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ŋs) % 132 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ŋs) % 159 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ŋs) % 200 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ŋs) kWh/a 16029 Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) kWh/a 14178 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 3330 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 2662	= ,	kW	19
temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ŋs) % 115 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ŋs) % 132 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ŋs) % 159 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ŋs) % 200 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE) kWh/a 16029 Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a 14178 Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a 3330 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 2662	5 ,	kW	19
temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for kWh/a Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for kWh/a Annual energy consumption under warmer climate conditions for kWh/a Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kW	10
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		kW	10
conditions for low-temperature applications (ηs)%132Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%159Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%200Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a16029Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a14178Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3330Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2662		%	115
conditions for medium-temperature applications (ηs)%159Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%200Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a16029Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a14178Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3330Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2662		%	132
conditions for low-temperature applications (\$\eta\$s		%	159
Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 2662		%	200
