Product datasheet: Combination heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer Load profile Space heating energy efficiency class under average climate conditions, medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (OHE) Rated heating output under average climate conditions for low-temperature applications (OHE) Rated heating over consumption under average climate conditions (AEC) Rated heating over consumption under average climate conditions (AEC) Rated heating energy efficiency under average climate conditions for low-temperature applications (I)s) Research aspect heating energy efficiency under average climate conditions for low-temperature applications (I)s) Research leading for the path of the			WPE-I 07.1 Plus HW 400
Load profile Space heating energy efficiency class under average climate conditions, medium-temperature applications Energy efficiency class, Space heating under average climate conditions, low-temperature applications Energy efficiency class, DHW heating under average climate conditions Rated heating output under average climate conditions for medium-temperature applications (Prated) Rated heating output under average climate conditions for low-temperature applications (Prated) Rated heating output under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual power consumption under average climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for mov-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for mov-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for development on low-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Prated) Rated heating output under colder climate conditions for low-temperature applications (Prated) Rated heating output under word energy efficiency under colder climate conditions for low-temperature applications (Prated) Annual energy consumption under colder climate conditions for low-temperature applications (Prated) Annual energy consumption under colder			207180
Space heating energy efficiency class under average climate conditions, medium-temperature applications Are liberary efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Annual energy consumption under average climate conditions for low-temperature applications (P rated) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual power consumption under average climate conditions for low-temperature applications (PI) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under average climate conditions (P) Seasonal space heating energy efficiency under average climate conditions (P) Special measures Special measures to be taken du assembly, installation or maintenance of the reperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature ap	Manufacturer		STIEBEL ELTRON
medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications (Prated) Energy efficiency class, DHW heating under average climate conditions Energy efficiency class, DHW heating under average climate conditions Energy efficiency class, DHW heating under average climate conditions for medium-temperature applications (Prated) Rated heating output under average climate conditions for low-temperature applications (Prated) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual power consumption under average climate conditions for low-temperature applications (Prated) Annual power consumption under average climate conditions for low-temperature applications (Prated) Annual power consumption under average climate conditions for low-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Energy efficiency. DHW heating (¶wh), under average climate conditions (Ps) Special measures For all special measures to be taken du assembly, installation or maintenance of the remperature applications (P rated) KW Energy efficiency under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applicatio	Load profile		XL
Inextemperature applications Energy efficiency class, DHW heating under average climate conditions Rated heating output under average climate conditions for medium-temperature applications (P rated) Annual energy consumption under average climate conditions for low-temperature applications (P rated) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual power consumption under average climate conditions (AEC) EWh 1272, Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions (I)s) For all special measures For all special measures to be taken du assembly, installation or maintenance of the reheater, see the installation instruct Rated heating output under colder climate conditions for low-temperature applications (I) rated) Rated heating output under warmer climate conditions for low-temperature applications (I) rated) Annual energy consumption under colder climate conditions for low-temperature applications (I) rated) Annual energy consumption under colder climate conditions for low-temperature applications (I) rated) Annual energy consumption under warmer climate conditions for low-temperature applications (I) rated) Annual energy consumption under warmer climate conditi			A+++
Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual power consumption under average climate conditions (AEC) Annual power consumption under average climate conditions (AEC) Easonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ig) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ig) Energy efficiency, DHW heating (Ijwh), under average climate conditions for low-temperature applications (Ijwh), and the low-temperature applications (Ijwh). Annual energy consumption under colder climate conditions for low-temperature applications (Ijwh). Annual energy consumpti			A+++
Rated heating output under average climate conditions for low-temperature applications (P rated) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual power consumption under average climate conditions (AEC) Easonal space heating energy efficiency under average climate conditions for low-temperature applications (Pis) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Pis) Energy efficiency, DHW heating (Nwh), under average climate conditions for low-temperature applications (Pis) Special measures For all special measures to be taken du assembly, installation or maintenance of the rabeter, see the installation instruct Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumpt	Energy efficiency class, DHW heating under average climate conditions		A+
temperature applications (P rated) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual power consumption under average climate conditions (AEC) EWh 1272, Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s Sound power level, indoor Option for operation only at off-peak times For all special measures be taken du assembly, installation or maintenance of the reheater, see the installation instruct Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated polyput under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption u		kW	6
medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual power consumption under average climate conditions for low-temperature applications (QHE) Annual power consumption under average climate conditions (AEC) Easonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under average climate conditions for row-temperature applications (Ps) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ps) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the meater, see the installation instruct experiments applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate enditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate enditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate enditions for low-temperature applications (QHE)	- · ·	kW	7
temperature applications (QHE) Annual power consumption under average climate conditions (AEC) Annual power consumption under average climate conditions (AEC) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s Energy efficiency, DHW heating (I)wh), under average climate conditions Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the reheater, see the installation instruct Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (OHE)	To the state of th	kWh/a	3271
Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P)s Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (P)s Energy efficiency, DHW heating (Nwh), under average climate conditions Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the reheater, see the installation instruct heater, see the installation instruct assembly, installation or maintenance of the reheater, see the installation instruct temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (OHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (OHE)		kWh/a	2785
conditions for medium-temperature applications (ηs) % Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs) % Energy efficiency, DHW heating (ηwh), under average climate conditions % Sound power level, indoor dB(A) Option for operation only at off-peak times For all special measures to be taken duransembly, installation or maintenance of the reheater, see the installation instruct assembly, installation or maintenance of the reheater, see the installation instruct Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a 3 Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a 3 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 2 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 2 Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a	Annual power consumption under average climate conditions (AEC)	kWh	1272,000
conditions for low-temperature applications (ηs) Energy efficiency, DHW heating (ηwh), under average climate conditions Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the reheater, see the installation instruct heater, see the installation instruct seamely, installation or maintenance of the reheater, see the installation instruct temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (QHE)		%	154
Sound power level, indoor Option for operation only at off-peak times For all special measures ob taken du assembly, installation or maintenance of the reheater, see the installation instruct heater, see the installation instruct seemperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (QHE)		%	200
Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the reheater, see the installation instruct heater, see the installation instruct seemperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) As a see the installation or maintenance of the reheater, see the installation instruct heater, see the in	Energy efficiency, DHW heating (ηwh), under average climate conditions	%	128
For all special measures to be taken du assembly, installation or maintenance of the reheater, see the installation instruct heater, see the installation instruct temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for medium-temperature applications (OHE) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ngs) Seasonal space heating energy efficiency under colder climate endium-temperature applications (Ngs)	Sound power level, indoor	dB(A)	37
Special measures assembly, installation or maintenance of the received heater, see the installation instruct. Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (NE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (NS)	Option for operation only at off-peak times		x
temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηS) Seasonal space heating energy efficiency under colder climate 6%	Special measures		For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions
temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)	- ,	kW	6
