Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Space heating energy efficiency class under average climate conditions, medium-temperature applications A+++			HPA-O 13.2 Plus HC 400
Space heating energy efficiency class under average climate conditions, medium-temperature applications A+++			207435
medium-temperature applications Rated heating output under average climate conditions, low-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (I) rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I) rated) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I) rated average climate conditions for medium-temperature applications (I) rated average climate conditions for low-temperature applications (I) rated average climate conditio	Manufacturer		STIEBEL ELTRON
Investmentature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space (P seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space (P average seasonal space (P average) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P average) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P average) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P average) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P average) Seasonal space heating energy efficiency und			A+++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low- temperature applications (QHE) Annual energy consumption under average climate conditions for low- temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Special measures Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation- und Montageanweisung Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (F)s Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (F)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (F)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (F)s Annual energy consumption under colder climate conditions for low- temperature ap			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Alle beim Zusammenbau, der installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation under temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P roted) Rated heating output under warmer climate conditions for low-temperature applications (P roted) Rated heating output under warmer climate conditions for low-temperature applications (P roted) Rated heating output under warmer climate conditions for low-temperature applications (P roted) Rated heating output under warmer climate conditions for low-temperature ap		kW	15
conditions for medium-temperature applications (I)s) % 137 Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) % 193 Annual energy consumption under average climate conditions for medium-temperature applications (OHE) kWh/a 7653 Annual energy consumption under average climate conditions for low-temperature applications (OHE) kWh/a 6159 Sound power level, indoor dB(A) 0 Option for operation only at off-peak times Alle bein Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation our Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation under Montageanweisung Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW 14 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 8 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated) kW 146 Seasonal space		kW	15
Annual energy consumption under average climate conditions for medium-temperature applications (P rated) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Sound power level, indoor descriptions (OHE) Special measures Alle beim Zusammenbau, der Installation under average climate conditions for low-temperature applications (OHE) Special measures Alle beim Zusammenbau, der Installation oder Wartung des Raumheizgerätes zu treffenden besonderen Vorkehrungen: Siehe Installation- und Montageanweisung Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P) and the descriptions (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (R) and the descriptions (R) and the descrip		%	157
medium-temperature applications (QHE) kWh/a 6159 Annual energy consumption under average climate conditions for low-temperature applications (QHE) kWh/a 6159 Sound power level, indoor dB(A) 0 Option for operation only at off-peak times ————————————————————————————————————		%	193
