## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

| Manufacturer   |  |       | WPL 23 cool                                       |
|--|--|-------|---|
| Space heating energy efficiency class under average climate conditions, medium-temperature applications  Arthous-temperature applications  Arthous-temperature applications  Arthous-temperature applications  Arthous-temperature applications  Arthous-temperature applications  Arthous-temperature applications (P rated)  Arthous-temperature applications (P rated)  Arthous-temperature applications (P rated)  Are added nearing output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (S)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (S)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (S)  Annual energy consumption under average climate conditions for low-temperature applications (SHS)  Annual energy consumption under average climate conditions for low-temperature applications (SHE)  Annual energy consumption under average climate conditions for low-temperature applications (SHE)  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room healer, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Are also papilications (P rated)  Are also  |  |       | 223402  |
| medium-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (N) Resonal space heating energy efficiency under average climate conditions for low-temperature applications (N) Rated heating output under average climate conditions for medium-temperature applications (N) Ranual energy consumption under average climate conditions for low-temperature applications (N+E) Ranual energy consumption under average climate conditions for low-temperature applications (N+E) Ranual energy consumption under average climate conditions for low-temperature applications (N+E) Rated heating output under average climate conditions for low-temperature applications (N+E) Sound power level, indoor Sound power level, indoor Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under waverage climate conditions for medium-temperature applications (P rated) Rated heating output under waverage climate conditions for low-temperature applications (P rated) Rated heating output under waverage climate conditions for low-temperature applications (P rated) Rated heating output under waverage climate conditions for low-temperature applications (P rated) Rated heating output under waverage climate conditions for low-temperature applications (P rated) Rated heating output under waverage climate conditions for low-temperature applications (P rated) R | Manufacturer   |       | STIEBEL ELTRON                                    |
| Iow-temperature applications   Rated heating output under average climate conditions for medium-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (F) rated)   Rated heating output under average climate conditions for medium-temperature applications (F)   Rated heating output under average climate conditions for medium-temperature applications (F)   Rated heating output under average climate conditions for low-temperature applications (F)   Rated heating output under average climate conditions for low-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under colder climate conditions for medium-temperature applications (P rated)   Rated heating output under colder climate conditions for medium-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate condit   |  |       | A+  |
| temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating energy efficiency under average climate conditions for medium-temperature applications (fls) Rated heating energy efficiency under average climate conditions for low-temperature applications (fls) Ranual energy consumption under average climate conditions for medium-temperature applications (OHE) Ranual energy consumption under average climate conditions for low- temperature applications (OHE) Rated heating output under average climate conditions for low- temperature applications (OHE) Rated heating output under colder climate conditions for medium- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for medium- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Seasonal space heating energy efficienc |  |       | A+  |
| temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Sound power level, indoor Sound power level, indoor Special measures  For all special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P)s Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (I)s Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (I)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (I)s Seasonal space heating energy efficiency under warmer c |  | kW    | 17  |
| conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (NE)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Special measures  Option for operation only at off-peak times  For all special measures to be taken during seembly, installation or maintenance of the room leather, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Annual energy c |  | kW    | 16  |
| conditions for low-temperature applications (I)s)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Applications (OHE)  Special measures  Applications (OHE)  Special measures  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P) applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (PIS)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (PIS)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (PIS)  Annual energy consumption under colder climate conditions for low-temperature applications  |  | %     | 119   |
| medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s  Seasonal space heating energ |  | %     | 136   |
| temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Por all special measures or assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Is)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Is)  Seasonal space  |  | kWh/a | 11997   |
| Option for operation only at off-peak times  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  | The state of the s | kWh/a | 8891  |
| Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (N <sub>5</sub> )  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (N <sub>5</sub> )  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (N <sub>5</sub> )  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (N <sub>5</sub> )  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (N <sub>5</sub> )  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)                              | Sound power level, indoor  | dB(A) | 58  |
| Special measures         assembly, installation or maintenance of the room heater, see the installation instructions           Rated heating output under colder climate conditions for medium-temperature applications (P rated)         kW         18           Rated heating output under colder climate conditions for low-temperature applications (P rated)         kW         18           Rated heating output under warmer climate conditions for medium-temperature applications (P rated)         kW         15           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         15           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         15           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         15           Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)         %         108           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)         %         117           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)         %         172           Annual energy consumption under colder climate conditions for low-temperature applications (OHE)         kWh/a         13576           Annual energy consumption under warmer climate conditions for low-temperature ap   | Option for operation only at off-peak times  |       | <u>-</u>  |
| temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)   | Special measures   |       | assembly, installation or maintenance of the room |
