## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer			WPF 66
Space heating energy efficiency class under average climate conditions, medium-temperature applications   A+++   Iow-temperature applications   A++++   Iow-temperature   A+++++++++++++++++++++++++++++++++++			233008
medium-temperature applications  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)  Annual energy consumption under average climate conditions for low-temperature applications (Ps)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Sound power level, indoor  Sound power level, indoor  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under ware climate conditions for medium-temperature applications (P rated)  Rated heating output under ware climate conditions for medium-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate	Manufacturer		STIEBEL ELTRON
Instrumenture applications   Rated heating output under average climate conditions for medium- temperature applications (P rated)   Rated heating output under average climate conditions for low- temperature applications (P rated)   Rated heating output under average climate conditions for low- temperature applications (P rated)   Rated heating output under average climate conditions (F)   Rated heating energy efficiency under average climate conditions for medium-temperature applications (F)   Rated heating energy efficiency under average climate conditions for low- temperature applications (P rated)   Rated heating energy efficiency under average climate conditions for low- temperature applications (OHE)   Rated heating output under average climate conditions for low- temperature applications (OHE)   Rated heating output under average climate conditions for low- temperature applications (OHE)   Rated heating output under colder climate conditions for low- temperature applications (OHE)   Rated heating output under colder climate conditions for medium- temperature applications (P rated)   Rated heating output under colder climate conditions for low- temperature applications (P rated)   Rated heating output under colder climate conditions for low- temperature applications (P rated)   Rated heating output under colder climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate conditions for low- temperature applications (P rated)   Rated heating output under warmer climate condi			A++
temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Responsible Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ps) Responsible Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Sp) Responsible Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Sp) Responsible Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Responsible Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Responsible Seasonal Space Responsible Seasonal Space Read Seasonal S			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ifs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ifs) Annual energy consumption under average climate conditions for medium-temperature applications (Ifs) Annual energy consumption under average climate conditions for low-temperature applications (Iff) Annual energy consumption under average climate conditions for low-temperature applications (Iff) Sound power level, indoor  Sound power level, indoor  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for iow-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Reasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P R)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P R)  Annual energy consumption under colder climate conditions for low-temperature appl		kW	62
conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Sound power level, indoor  Sound power level, indoor  Sound power level, indoor  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature appli		kW	67
conditions for low-temperature applications (P)s  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Applications (OHE)  Sound power level, indoor  Applications (OHE)  Sound power level, indoor  Applications (OHE)  Special measures  Applications (OHE)  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P)s  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P)s  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer c		%	131
medium-temperature applications (QHE)         KWh/a         37120           Annual energy consumption under average climate conditions for low-temperature applications (QHE)         kWh/a         280222           Sound power level, indoor         dB(A)         63           Option for operation only at off-peak times         —           Special measures         For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions           Rated heating output under colder climate conditions for medium-temperature applications (P rated)         kW         83           Rated heating output under colder climate conditions for low-temperature applications (P rated)         kW         62           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         67           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         67           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         67           Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P)         %         136           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P)s)         %         130           Seasonal space heating energy efficiency under warmer climate conditions		%	190
temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature	3, 1	kWh/a	37120
Option for operation only at off-peak times       For all special measures to be taken during assembly, installation or maintenance of the room assembly, installation or maintenance of the room heater, see the installation instructions         Rated heating output under colder climate conditions for low-temperature applications (P rated)       kW       83         Rated heating output under warmer climate conditions for low-temperature applications (P rated)       kW       62         Rated heating output under warmer climate conditions for low-temperature applications (P rated)       kW       67         Rated heating output under warmer climate conditions for low-temperature applications (P rated)       kW       67         Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)       %       136         Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)       %       197         Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps)       %       130         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)       %       130         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)       %       130         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE)       kWh/a       53447		kWh/a	28022
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (∏s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (∏s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (∏s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (∏s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (∏s)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	63
Special measures         assembly, installation or maintenance of the room heater, see the installation instructions           Rated heating output under colder climate conditions for medium-temperature applications (P rated)         kW         78           Rated heating output under colder climate conditions for low-temperature applications (P rated)         kW         83           Rated heating output under warmer climate conditions for medium-temperature applications (P rated)         kW         62           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         67           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         67           Rated heating output under warmer climate conditions for low-temperature applications (P rated)         kW         67           Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)         %         197           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)         %         130           Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns)         %         190           Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)         kWh/a         53447           Annual energy consumption under colder climate conditions for l	Option for operation only at off-peak times		
temperature applications (P rated)kW83Rated heating output under colder climate conditions for low-temperature applications (P rated)kW83Rated heating output under warmer climate conditions for medium-temperature applications (P rated)kW62Rated heating output under warmer climate conditions for low-temperature applications (P rated)kW67Rated heating output under warmer climate conditions for low-temperature applications (P rated)kW67Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Πs)%136Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Πs)%197Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Πs)%130Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Πs)%190Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a53447Annual energy consumption under colder climate conditions for low-temperature applications (QHE)kWh/a39996Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)kWh/a24059Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)kWh/a18119	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated)kW83Rated heating output under warmer climate conditions for medium-temperature applications (P rated)kW62Rated heating output under warmer climate conditions for low-temperature applications (P rated)kW67Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)%136Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%197Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%130Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%130Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%190Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a53447Annual energy consumption under colder climate conditions for low-temperature applications (QHE)kWh/a39996Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a24059Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)kWh/a18119		kW	78
temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate warmer definitions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	<b>9</b> ,	kW	83
temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for kWh/a  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kW	62
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		kW	67
conditions for low-temperature applications (ηs)76197Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%130Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%190Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a53447Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a39996Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a24059Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a18119		%	136
conditions for medium-temperature applications (ηs)76130Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%190Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a53447Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a39996Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a24059Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a18119		%	197
conditions for low-temperature applications (ηs)%190Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a53447Annual energy consumption under colder climate conditions for low-temperature applications (QHE)kWh/a39996Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a24059Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)kWh/a18119		%	130
medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for kWh/a  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  kWh/a  18119		%	190
