## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

| Space heating energy efficiency class under average climate conditions, medium-temperature applications (Prated) (Prated |   |       | WPL 19 I Set                                      |
|--|---|-------|---|
| Space heating energy efficiency class under average climate conditions, medium-temperature applications   A+++   |   |       | 235193  |
| medium-temperature applications  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s  Annual energy consumption under average climate conditions for low-temperature applications (Pis)  Annual energy consumption under average climate conditions for low-temperature applications (Pis)  Annual energy consumption under average climate conditions for low-temperature applications (Pis)  Sound power level, indoor  Application of operation only at off-peak times  Special measures  Special measures  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warener climate conditions for low-temperature applications (P rated)  Rated heating output under warener climate conditions for medium-temperature applications (P rated)  Rated heating output under warener climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under | Manufacturer                                |       | STIEBEL ELTRON                                    |
| Iow-temperature applications   Rated heating output under average climate conditions for medium-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (F) rated)   Rated heating output under average climate conditions for medium-temperature applications (F)   Rated heating energy efficiency under average climate conditions for medium-temperature applications (F)   Rated heating energy efficiency under average climate conditions for low-temperature applications (F)   Rated heating output under average climate conditions for low-temperature applications (OHE)   Rated heating output under average climate conditions for low-temperature applications (OHE)   Rated heating output under colder climate conditions for low-temperature applications (OHE)   Rated heating output under colder climate conditions for medium-temperature applications (OHE)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under colder climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate conditions for low-temperature applications (P rated)   Rated heating output under warmer climate co   |   |       | A++   |
| temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fts) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fts) Annual energy consumption under average climate conditions for medium-temperature applications (fts) Annual energy consumption under average climate conditions for medium-temperature applications (fts) Annual energy consumption under average climate conditions for low- temperature applications (OHE) Sound power level, indoor Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under  |   |       | A+++  |
| temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Sound power level, indoor  Sound power level, indoor  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under varmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (I)s)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under war |   | kW    | 13  |
| conditions for medium-temperature applications (R)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (R)s  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures to be taken during sassembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  8  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate |   | kW    | 12  |
| Annual energy consumption under average climate conditions for medium-temperature applications (Prated)  Rated heating output under colder climate conditions for low-temperature applications (Prated)  Rated heating output under colder climate conditions for low-temperature applications (Prated)  Rated heating output under colder climate conditions for low-temperature applications (Prated)  Rated heating output under colder climate conditions for low-temperature applications (Prated)  Rated heating output under colder climate conditions for low-temperature applications (Prated)  Rated heating output under colder climate conditions for low-temperature applications (Prated)  Rated heating output under colder climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output under warmer climate conditions for low-temperature applications (Prated)  Rated heating output  |   | %     | 143   |
| medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Bated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)  Seasonal space heating energy efficiency under warmer c |   | %     | 175   |
| temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)                 | •     | kWh/a | 7498  |
| Option for operation only at off-peak times       For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions.         Rated heating output under colder climate conditions for medium-temperature applications (P rated)       kW       17         Rated heating output under colder climate conditions for low-temperature applications (P rated)       kW       18         Rated heating output under warmer climate conditions for low-temperature applications (P rated)       kW       10         Rated heating output under warmer climate conditions for low-temperature applications (P rated)       kW       8         Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)       %       133         Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns)       %       147         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)       %       195         Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns)       %       220         Annual energy consumption under colder climate conditions for low-temperature applications (NHE)       kWh/a       1234         Annual energy consumption under colder climate conditions for low-temperature applications (OHE)       kWh/a       3371         Annual energy consumption under warmer c   | •     | kWh/a | 5699  |
| Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  | Sound power level, indoor                   | dB(A) | 54  |
| Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for Mwh/a  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   | Option for operation only at off-peak times |       |   |
| Exemperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   | Special measures                            |       | assembly, installation or maintenance of the room |
| temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)   |   | kW    | 17  |
| temperature applications (P rated)     kW     8       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW     8       Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)     %     147       Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)     %     147       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %     195       Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)     %     220       Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)     kWh/a     12274       Annual energy consumption under colder climate conditions for low-temperature applications (QHE)     kWh/a     12341       Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)     kWh/a     3371       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a     2174   | <b>5</b> .                                  | kW    | 18  |
