## Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer Space heating energy efficiency class under average climate conditions, medium-temperature applications Ferrory efficiency class, space heating under average climate conditions, low-temperature applications Farther heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  For all special measures times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation or maintenance of the room heater, see the installation or maintenance of the room heater applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency unde			WPL 17 ICS classic
Space heating energy efficiency class under average climate conditions, medium-temperature applications   A++			236376
medium-temperature applications  Rated heating output under average climate conditions for medium-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Rated heating output under average climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R) (P rated)  Annual energy consumption under average climate conditions for medium-temperature applications (Pis)  Annual energy consumption under average climate conditions for low-temperature applications (Pis)  Annual energy consumption under average climate conditions for low-temperature applications (Pis)  Annual energy consumption under average climate conditions for low-temperature applications (Pis)  Annual energy consumption under average climate conditions for low-temperature applications (Pis)  Sound power level, indoor  Application only at off-peak times  Special measures  Special measures  Special measures  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warener climate conditions for low-temperature applications (P rated)  Rated heating output under warener climate conditions for medium-temperature applications (P rated)  Rated heating output under warener climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency und	Manufacturer		STIEBEL ELTRON
low-temperature applications   Rated heating output under average climate conditions for medium-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (P rated)   Rated heating output under average climate conditions for low-temperature applications (F)   Care and the conditions for medium-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (PE)   Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (OHE)   Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE)   Seasonal space heating energy efficiency under conditions for low-temperature applications (OHE)   Seasonal space (Parade)   Seasonal space heating energy efficiency under conditions for low-temperature applications (Parade)   Seasonal space heating energy efficiency under conder climate conditions for low-temperature applications (Parade)   Seasonal space heating energy efficiency under conder climate conditions for low-temperature applications (Parade)   Seasonal space heating energy efficiency under conder climate conditions for low-temperature applications (Parade)   Seasonal space heating energy efficiency under conder climate conditions for medium-temperature applications (Parade)   Seasonal space heating energy efficiency under conder climate conditions for medium-temperature applications (Parade)   Seasonal space heating en			A++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (f)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (f)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (f)s) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low- temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under colder climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications (P rated)  Rated heating output under warmer climate conditions for low- temperature applications			A++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ifs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ifs) Annual energy consumption under average climate conditions for low-temperature applications (Ifs) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times  Special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under varmer climate conditions for low-temperature applications (P rated)  Rated heating output under varmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ifs)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ifs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ifs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ifs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ifs)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)		kW	7
conditions for medium-temperature applications (I)s)  Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Annual energy consumption under average climate conditions for low-temperature applications (OHE)  Option for operation only at off-peak times  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warner climate conditions for low-temperature applications (P rated)  Rated heating output under warner climate conditions for low-temperature applications (P rated)  Rated heating output under warner climate conditions for low-temperature applications (P rated)  Rated heating output under warner climate conditions for low-temperature applications (P rated)  Rated heating output under warner climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (I)s  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (I)s  Seasonal space heating energy efficiency under warner climate conditions for medium-temperature applications (I)s  Seasonal space heating energy efficiency under warner climate conditions for medium-temperature applications (I)s  Seasonal space heating energy efficiency under warner climate conditions for medium-temperature applications (I)s  Seasonal space heating energy efficiency		kW	9
Annual energy consumption under average climate conditions for medium-temperature applications (P rated)  Annual energy consumption under average climate conditions for medium-temperature applications (OHE)  Sound power level, indoor  Option for operation only at off-peak times  For all special measures  For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Pis)  Annual energy consumption under colder climate conditions for low-temperature applications (PIE)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)		%	129
medium-temperature applications (QHE)  Annual energy consumption under average climate conditions for low-temperature applications (QHE)  Sound power level, indoor  Option for operation only at off-peak times  Special measures  Special measures  Special measures  Special measures  To all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature appl		%	167
temperature applications (QHE)  Sound power level, indoor Option for operation only at off-peak times  Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Pis)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Pis)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Pis)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kWh/a	4506
Option for operation only at off-peak times   For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions assembly, installation or maintenance of the room heater, see the installation instructions temperature applications (P rated)   kW		kWh/a	4387
Special measures  Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	51
Rated heating output under colder climate conditions for medium-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (f)s)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (f)s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (f)s)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (f)s)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under colder climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (OHE)	Option for operation only at off-peak times		
Rated heating output under colder climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated)  Rated heating output under warmer climate conditions for medium-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Rated heating output under warmer climate conditions for low-temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kW	13
temperature applications (P rated)     kW       Rated heating output under warmer climate conditions for low-temperature applications (P rated)     kW       Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)     %       Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)     %       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %       Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)     %       Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)     %       Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)     kWh/a       Annual energy consumption under colder climate conditions for low-temperature applications (QHE)     kWh/a       Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)     kWh/a       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a       Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)     kWh/a	<b>9</b> ,	kW	13
temperature applications (P rated)  Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)  Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)  Annual energy consumption under colder climate conditions for medium-temperature applications (ηs)  Annual energy consumption under colder climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)  Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)		kW	4
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%130Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%145Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%212Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a11197Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a9919Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a1592Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a1247		kW	5
conditions for low-temperature applications (ηs)76130Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%145Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%212Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a11197Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a9919Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a1592Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a1247		%	111
