Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Manufacturer Space heating energy efficiency class under average climate conditions, medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) For all special measures to be taken de assembly, installation or maintenance of the respective description of the respective descrip
Space heating energy efficiency class under average climate conditions, medium-temperature applications Analysis Energy efficiency class, space heating under average climate conditions, low-temperature applications kW Rated heating output under average climate conditions for medium-temperature applications (P rated) kW Rated heating output under average climate conditions for low-temperature applications (P rated) kW Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (ηs) % Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs) % Annual energy consumption under average climate conditions for medium-temperature applications (QHE) kWh/a Annual energy consumption under average climate conditions for low-temperature applications (QHE) kWh/a Sound power level, indoor dB(A) Option for operation only at off-peak times For all special measures to be taken do assembly, installation or maintenance of the reasonable of the reassembly, installation or maintenance of the reasonable of the r
medium-temperature applications A Energy efficiency class, space heating under average climate conditions, low-temperature applications A Rated heating output under average climate conditions for medium-temperature applications (P rated) kW Rated heating output under average climate conditions for low-temperature applications (P rated) kW Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (ηs) % Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs) % Annual energy consumption under average climate conditions for medium-temperature applications (QHE) kWh/a Annual energy consumption under average climate conditions for low-temperature applications (QHE) kWh/a Sound power level, indoor dB(A) Option for operation only at off-peak times For all special measures to be taken do assembly, installation or maintenance of the reasonably, installation or maintenance of the reasonably installation or maintenance of the reasonable inst
Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken deassembly, installation or maintenance of the reasonable.
temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken do assembly, installation or maintenance of the response of the respon
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken do assembly, installation or maintenance of the response to the respective descenting the season of the respective descenting the s
conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ηs) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken do assembly, installation or maintenance of the responsible to the r
conditions for low-temperature applications (ηs) 76 Annual energy consumption under average climate conditions for medium-temperature applications (QHE) kWh/a Annual energy consumption under average climate conditions for low-temperature applications (QHE) kWh/a Sound power level, indoor dB(A) Option for operation only at off-peak times For all special measures to be taken do assembly, installation or maintenance of the respective of the respective description.
medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the results of
temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the results.
Option for operation only at off-peak times For all special measures to be taken du assembly, installation or maintenance of the respectively.
For all special measures to be taken du assembly, installation or maintenance of the r
Special measures assembly, installation or maintenance of the r
heater, see the installation instruct
Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW
Rated heating output under colder climate conditions for low-temperature applications (P rated) kW
Rated heating output under warmer climate conditions for medium-temperature applications (P rated)
Rated heating output under warmer climate conditions for low-temperature applications (P rated)
Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)
Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (η s)
Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)
Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (η s)
Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) kWh/a
Annual energy consumption under colder climate conditions for low-temperature applications (QHE) kWh/a
Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)
Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)
Sound power level, outdoor dB(A)
