Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Space heating energy efficiency class under average climate conditions, medium-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (N+) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (OHE) Ranual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Special measures For all spacial measures to be taken during assembly, installation or maintenance of the room heater, see histallation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under were climate conditions for low-temperature applications (P rated) Rated heating output under were climate conditions for low-temperature applications (P rated) Rated heating output under were climate conditions for low-temperature applications (P rated) Rated heating output under were climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P la) Seasonal sp			WPL 19 A dB Set
Space heating energy efficiency class under average climate conditions, medium-temperature applications A+++ Iow-temperature applications A+++ Iow-temperature applications A+++ Iow-temperature applications P rated A++ Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (IS) Annual energy consumption under average climate conditions for medium-temperature applications (IS) Annual energy consumption under average climate conditions for well-un-temperature applications (IS) Annual energy consumption under average climate conditions for low-temperature applications (IS) Annual energy consumption under average climate conditions for low-temperature applications (IS) Annual energy consumption under average climate conditions for low-temperature applications (IS) Annual energy consumption under average climate conditions for low-temperature applications (IS) Annual energy consumption under average climate conditions for low-temperature applications (IS) Annual energy consumption under average climate conditions for low-temperature applications (IP ated) Annual energy consumption under average climate conditions for medium-temperature applications (IP rated) Annual energy consumption under average climate conditions for low-temperature applications (IP ated) Annual energy consumption under average climate conditions for low-temperature applications (IP ated) Annual energy consumption under colder climate conditions for low-temperature applications (IS) Annual energy consumption under colder climate conditions for low-temperature applications (IS) Annual energy consumption under colder climate conditions for low-tempera			238962
medium-temperature applications Rated heating output under average climate conditions for medium- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Rated heating output under average climate conditions for medium- temperature applications (P rated) Resonal space heating energy efficiency under average climate conditions for medium-temperature applications (f)s) Resonal space heating energy efficiency under average climate conditions for low-temperature applications (f)s) Ranual energy consumption under average climate conditions for medium-temperature applications (QHE) Ranual energy consumption under average climate conditions for low- temperature applications (QHE) Ranual energy consumption under average climate conditions for low- temperature applications (QHE) Ranual energy consumption under average climate conditions for low- temperature applications (QHE) Ranual energy consumption under average climate conditions for low- temperature applications (QHE) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under ware climate conditions for low- temperature applications (P rated) Rated heating output under warener climate conditions for medium- temperature applications (P rated) Rated heating output under warener climate conditions for low- temperature applications (P rated) Rated heating output under warener climate conditions for low- temperature applications (P rated) Rated heating output under warener climate conditions for low- temperature applications (P rated) Rated heating output under warener climate conditions for low- temperature applications (P rated) Rated heatin	Manufacturer		STIEBEL ELTRON
Iow-temperature applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Rated heating output under average climate conditions for medium-temperature applications (F) Rated heating output under average climate conditions for medium-temperature applications (F) Rated heating energy efficiency under average climate conditions for medium-temperature applications (F) Rated heating energy efficiency under average climate conditions for low-temperature applications (F) Rated heating output under average climate conditions for which applications (OHE) Rated heating output under average climate conditions for low-temperature applications (OHE) Rated heating output under colder climate conditions for low-temperature applications (OHE) Rated heating output under colder climate conditions for medium-temperature applications (OHE) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions			A++
temperature applications (P rated) Rated heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (ft)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (ft)s) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times For all special measures be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P roted) Rated heating output under warmer climate conditions for low-temperature applications (P roted) Rated heating output under warmer climate conditions for low-temperature applications (P roted) Rated heating output und			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (Ns) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times Special measures For all special measures to be taken during assembly, instalation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for needium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warme		kW	13
conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (P)s Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Pis) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Pis) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P lish) Annual energy consumption under colder climate conditions for low-temperature applications (OHE) Annual energy consumptio		kW	12
Annual energy consumption under average climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P la		%	142
Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Special measures Special measures Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for	, , , ,	%	175
temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ifs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature app		kWh/a	7498
Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 17 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 18 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) % 133 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s % 140 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s % 157 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s % 157 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (R)s % 157 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE) kWh/a 12274 </td <td></td> <td>kWh/a</td> <td>5699</td>		kWh/a	5699
Special measures Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	0
Special measures assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW 17 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 18 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 10 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) % 133 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps) % 157 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps) % 157 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps) % 157 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (OHE) kWh/a 12274 Annual energy consumption under colder climate	Option for operation only at off-peak times		
Emperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	5 ,	kW	17
temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	• •	kW	18
temperature applications (P rated)KWSeasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)%133Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%140Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%157Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%194Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a12274Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a12341Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3371Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2174Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2174		kW	10
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a		kW	8
conditions for low-temperature applications (ηs)76140Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%157Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%194Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a12274Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a12341Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3371Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2174		%	133
conditions for medium-temperature applications (ηs)%157Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%194Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a12274Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a12341Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3371Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a2174		%	140
conditions for low-temperature applications (ηs)%194Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a12274Annual energy consumption under colder climate conditions for low-temperature applications (QHE)kWh/a12341Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a3371Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)kWh/a2174		%	157
medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 2174	, , ,	%	194
temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a kWh/a 2174		kWh/a	12274
medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a kWh/a 2174		kWh/a	12341
