Product datasheet: Space heater to Regulation (EU) No 811/2013 (S.I. 2019 No. 539 / Programme 2)

Space heating energy efficiency class under average climate conditions, medium-temperature applications A+++			HPA-O 13 C Premium
Space heating energy efficiency class under average climate conditions, medium-temperature applications A+++			238983
medium-temperature applications Energy efficiency class, space heating under average climate conditions, low-temperature applications? Protection of the heating output under average climate conditions for medium-temperature applications? (Prated) Rated heating output under average climate conditions for low-temperature applications (Prated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R) and average climate conditions for low-temperature applications (R) and average climate conditions for medium-temperature applications (R) and average climate conditions for medium-temperature applications (R) and average climate conditions for low-temperature applications (R) and average climate conditions for medium-temperature applications (R) and average climate conditions for low-temperature applications (R) and	Manufacturer		STIEBEL ELTRON
Institute presentative applications Rated heating output under average climate conditions for medium-temperature applications (P rated) Seasonal space heating output under average climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (F) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (F) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (F) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (NE) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under conditions for low-temperature applications (OHE) Seasonal space heating energy efficiency under conditions for low-temperature applications (OF rated) Seasonal space heating output under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (P) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (P) S			A++
temperature applications (P rated) Rated heating output under average climate conditions for low- temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (fls) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (fls) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low- temperature applications (OHE) Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under colder climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P rated) Rated heating output under warmer climate conditions for low- temperature applications (P			A+++
temperature applications (P rated) Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (I)s) Seasonal space heating energy efficiency under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Annual energy consumption under average climate conditions for low-temperature applications (I)s) Sound power level, indoor Sound power level, indoor Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (I)s Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (I)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (I)s Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (I)s Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy con		kW	15
Seasonal space heating energy efficiency under average climate conditions for medium-temperature applications (R)s Annual energy consumption under average climate conditions for medium-temperature applications (AHE) Annual energy consumption under average climate conditions for medium-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Annual energy consumption under average climate conditions for low-temperature applications (P rated) ABE(A) ABE(A) BO (D) Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions expectations (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under awarmer climate conditions for low-temperature applications (P rated) Rated heating output under awarmer climate conditions for low-temperature applications (P s) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (P s) Annual energy consumption under colder climate conditions for low-temperature applications	- · ·	kW	15
Annual energy consumption under average climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P lis) Rated heating output under warmer climate conditions for low-temperature applications (P lis) Rated heating output under warmer climate conditions for low-temperature applications (P lis) Rat	· · · · · · · · · · · · · · · · · · ·	%	144
medium-temperature applications (OHE) Annual energy consumption under average climate conditions for low-temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Bror all special measures to be taken during assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (R)s Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (MS) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consum		%	187
temperature applications (QHE) Sound power level, indoor Option for operation only at off-peak times Special measures Special measures Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ifs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ifs) Annua		kWh/a	8444
Option for operation only at off-peak times For all special measures to be taken during assembly, installation or maintenance of the room assembly, installation or maintenance of the room heater, see the installation instructions heater, see the installation instructions with temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 22 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) % 125 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ns) % 160 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) % 177 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ns) 246 Annual energy consumption under colder climate conditions for low-temperature applications (OHE) kWh/a 16179 Annual energy consumption under colder climate conditions for low-temperature applications (OHE) <t< td=""><td></td><td>kWh/a</td><td>6513</td></t<>		kWh/a	6513
Special measures Rated heating output under colder climate conditions for medium-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ps) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Sound power level, indoor	dB(A)	0
Special measures assembly, installation or maintenance of the room heater, see the installation instructions Rated heating output under colder climate conditions for medium-temperature applications (P rated) kW 22 Rated heating output under colder climate conditions for low-temperature applications (P rated) kW 21 Rated heating output under warmer climate conditions for medium-temperature applications (P rated) kW 8 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Rated heating output under warmer climate conditions for low-temperature applications (P rated) kW 8 Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ps) % 125 Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ps) % 160 Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ps) % 177 Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (OHE) kWh/a 16179 Annual energy consumption under colder climate conditions for low-temperature applications (OHE) kWh/a 12690 Annual energy consumption under warmer climate conditions	Option for operation only at off-peak times		<u> </u>
Example a polications (P rated) Rated heating output under colder climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (Πs) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Πs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Πs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Πs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	Special measures		assembly, installation or maintenance of the room
temperature applications (P rated) Rated heating output under warmer climate conditions for medium-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (Ŋs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (Ŋs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ŋs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (Ŋs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (Ŋs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	= ,	kW	22
temperature applications (P rated) Rated heating output under warmer climate conditions for low-temperature applications (P rated) Seasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs) Annual energy consumption under colder climate conditions for medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)	= ,	kW	21
temperature applications (P rated)kWSeasonal space heating energy efficiency under colder climate conditions for medium-temperature applications (ηs)%125Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%160Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%177Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%246Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a16179Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a12690Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a2369Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a1718	= ,	kW	8
conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under colder climate conditions for low-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/aAnnual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a	<u> </u>	kW	8
conditions for low-temperature applications (ηs)76100Seasonal space heating energy efficiency under warmer climate conditions for medium-temperature applications (ηs)%177Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%246Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a16179Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a12690Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a2369Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a1718		%	125
conditions for medium-temperature applications (ηs)76177Seasonal space heating energy efficiency under warmer climate conditions for low-temperature applications (ηs)%246Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a16179Annual energy consumption under colder climate conditions for low- temperature applications (QHE)kWh/a12690Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a2369Annual energy consumption under warmer climate conditions for low- temperature applications (QHE)kWh/a1718		%	160
conditions for low-temperature applications (ηs)%246Annual energy consumption under colder climate conditions for medium-temperature applications (QHE)kWh/a16179Annual energy consumption under colder climate conditions for low-temperature applications (QHE)kWh/a12690Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE)kWh/a2369Annual energy consumption under warmer climate conditions for low-temperature applications (QHE)kWh/a1718		%	177
medium-temperature applications (QHE) Annual energy consumption under colder climate conditions for low-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a 12690 kWh/a 1718		%	246
temperature applications (QHE) Annual energy consumption under warmer climate conditions for medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a kWh/a 1718		kWh/a	16179
medium-temperature applications (QHE) Annual energy consumption under warmer climate conditions for low-temperature applications (QHE) kWh/a kWh/a 1718		kWh/a	12690
